

## Technical Data Sheet

# SynertOI 800

**SynertOI 800** is a phosphoric acid solution used as acidifying and adherent that helps the foliar sprays to reduce the pH of the water thus avoiding the destruction of the agrochemicals known as alkaline hydrolysis, and in this way increases the effectiveness of the agrochemicals.

✓ **Technical properties:**

Property	Specification
Appearance	Clear, colorless liquid
Active content:	48 – 52 %

✓ **Application:**

<b>Properties and features</b>	<ul style="list-style-type: none"> <li>➤ In combination with <b>SynertOI 100</b> and <b>SynertOI 200</b> provides the require acidification of soil crops.</li> <li>➤ Good compatibility in agrochemical formulations</li> <li>➤ Cost-effective</li> </ul>
<b>Compatibility</b>	<b>SynertOI 800</b> is recommended to apply in combination with <b>SynertOI 100</b> and <b>SynertOI 200</b> in the recommended dosage.
<b>Use</b>	Is recommended to use <b>SynertOI 800</b> in a recommended dosage from 0.5 to 1.0 weight percentage in the final mixture.

✓ **Packaging**

- Gallon
- Drums
- IBC
